

Accommodations Needed

Do you have a spare room in your home...

... or an apartment in your basement or above your garage?

The **Rural Ontario Medical Program (ROMP)** is looking for accommodations in which to place medical students and residents who are training in your community. Providing furnished, private or semi-private accommodations to learners throughout the year ensures that your hospital will continue to be a strong teaching centre.

Accommodations will be added to a master list, which is distributed to learners doing rotations in your community. Adding your name to the community accommodation list will not guarantee that you will have a learner at all times during the year; the flow of learners to your community, and the number of available accommodations will determine how often learners will stay with you. Learners will contact you directly to make arrangements for their stay.

Accommodation funding is provided by ROMP to qualified learners up to a maximum of \$800 per month, which should include the rental cost of the unit as well as the cost for utilities. It is the learner's responsibility to pay for his or her accommodation directly and will be reimbursed at the end of the rotation, providing they submit an original rental receipt.

If you have accommodations that you would be willing to rent, please e-mail romp@romponline.com and indicate the **type of accommodations** (room in home, basement/garage apartment, etc), the **rental cost** and the **following information**:

- Private entrance? YES / NO
- Private bathroom? YES / NO
- Private kitchen? YES / NO
- Parking available? YES / NO
- Do you smoke? YES / NO
- Do you have pets? YES / NO
- Do you allow pets? YES / NO
- Do you provide linens? YES / NO

Are the following services available to learners?

- High speed internet access YES / NO
- Telephone with/without long distance YES / NO
- Cable Television YES / NO
- Laundry YES / NO

Are there additional costs to any of these services?

Please provide photos of the accommodations available.
